

Dinh Hoang Phuc - Back End Developer

Phone: +84 356.942.879 / Email: dhphuc1406@gmail.com

GitHub: [phucdhcoder19](#) / Portfolio: [hoangphuc](#)

SUMMARY

I'm a fourth-year Software Engineering student with solid hands-on experience in full-stack web development using Node.js and React.js. I'm passionate about building scalable, user-friendly web applications and enjoy solving real-world problems through clean and efficient code. I actively explore and apply modern technologies, including effectively integrating AI solutions into full-stack systems to enhance functionality, automation, and user experience. I'm eager to contribute to dynamic development teams while continuously improving my skills as a full-stack developer.

TECHNICAL SKILL

Programming Languages: JavaScript & TypeScript, Java

Frameworks / Platforms

- **Frontend:** React.js, Vue.js, Next.js, React Native (Expo), Redux Toolkit, Tailwind CSS, MUI, Ant Design, Axios, Responsive UI
- **Backend:** Node.js, Nest.js, Express.js, REST API, JWT Auth, Sequelize, Mongoose, Socket.io, Microservices, Redis, RabbitMQ, Docker

Others:

- Solid understanding of OOP principles and RESTful API design
- Familiar with MVC architecture and asynchronous programming in JavaScript
- Hands-on experience deploying applications using Docker and Amazon EC2
- Experience working with real-time communication using Socket.IO
- Able to collaborate using Git, GitHub and Agile workflow
- Quick learner, eager to explore new technologies and development best practices

PROJECT AND EXPERIENCES

Backend Developer Intern (6 months)

FPT Software

Technologies: Node.js, Express.js, MySQL, MongoDB, AWS EC2

Responsibilities:

- Developed and maintained RESTful APIs using Node.js and Express.js
- Designed and optimized relational database schemas in MySQL
- Worked with MongoDB for handling flexible and unstructured data
- Implemented token-based authentication (JWT) to secure APIs
- Deployed backend services on AWS EC2
- Configured NGINX and PM2 for production deployment and server stability
- Collaborated with Front-end team to integrate and test API endpoints
- Participated in debugging, performance optimization, and code reviews

AWARDS & CERTIFICATIONS

[award-and-certification](#)

EDUCATION

FPT University HCMC, Vietnam – B.Sc. in Software Engineering

Sep 2022 – Present | GPA: 8.6/10 (First 5 semesters)

PASTIMES AND ACTIVITIES

- Enjoy reading technology blogs and programming books; favorite: “Tôi đi code dạo” and “Head First Design Patterns”
- Passionate about exploring software architecture and design principles
- Spend free time experimenting with new web technologies and building side projects
- Regularly read tech articles and GitHub trending repositories for learning and inspiration
